

Opposition to HB 5663 Regarding Applying an Additional Excise Tax on Ammunition Purchases

This testimony is in opposition to HB 5663 concerning an Excise Tax on Ammunition. Ammunition is a necessity for responsible gun ownership and training. I am retired and already pay a 6.35% State Sales Tax and another 11% additional Federal Tax on ammo and firearm purchases. To penalize me further, a legal gun owner, with an additional Excise Tax for the actions of criminals is illogical, abusive and violates my second amendment freedoms.

Sincerely,
David loime
